Transcription Practice & Editorial Control

Synthetic audio assignment | Blank practice copy

Listen to SOURCE_simulated_meeting_audio.wav and produce a clean-read transcript. Preserve the facts, names, deadlines, numerical counts and conflicts. The audio says the speaker name before each turn.

Submission standards

- One speaker-attributed paragraph per turn (19 expected); no invented dialogue.
- Use [unclear] for genuinely ambiguous audio; do not silently guess.
- Separate transcript, minutes, decisions, and actions.
- Disclose that recording is TTS-generated and fictional.
